Other Skill ChatGPT

PROJECTS

StudyNotion - an ed-tech platform

(Try it here)

- Developed and implemented an innovative ed-tech platform using the MERN stack, showcasing proficiency in full-stack web development and facilitating seamless creation, consumption, and rating of educational content.
- Designed and developed RESTful APIs for smooth communication between front-end and back-end components, following industry standards for robustness and scalability, and enhancing platform security and user privacy with JWT (JSON Web Tokens).

Razorpay - FrontEnd Clone

(Try it here)

- Replicated the entire home page of Razorpay's interface using HTML and Tailwind CSS, demonstrating proficiency in web development.
- Wrote 1600 lines of HTML code using Tailwind CSS, showcasing efficiency and creativity in coding projects.

Personal Portfolio Website

(Try it here)

- Built my personal portfolio website under the guidance of industry experts Love Babbar and Lakshay Kumar in **3-4 days**, showcasing my frontend development skills and **fast learning** ability.
- Designed an attractive and interactive frontend for the portfolio website, showcasing my passion for web design and personal branding, with **4 sections**: introduction, projects, skills, and contact.

EXTRACURRICULAR & CERTIFICATIONS

J.P. Morgan Software Engineering Virtual Experience on Forage - March 2024

- Set up a local dev environment by downloading the necessary files, tools and dependencies.
- Fixed broken files in the repository to make web application output correctly.
- Used JPMorgan Chase's open source library called Perspective to generate a live graph that displays a data feed in a clear and visually appealing way for traders to monitor.

ACHIEVEMENTS

• Solved more than 350+ DSA Problems across various platform.
